# Summer Reading Tour

## Notes For Organized Groups

Dear Teachers and Caregivers,  
Welcome! Mark and the Library are delighted to present this terrific program for your children. Please read over these notes and share them with your staff.

The performance runs approximately 40 minutes. Please allow your children a restroom break **before** the program begins.

Please **sit your children in a close cluster within your sight and reach** so you can provide assistance and comfort to them for the duration of the presentation. If a child should need assistance because of discomfort, please assist them outside of the performance area. Your help with this allows the program to be enjoyed by all with minimal distractions. **Thank you for this important consideration.**

Please do have your children say **thank you** to the librarians for arranging this program. They have worked hard to plan the event and to find the funding to make today happen.

Please do take pictures for your children's summer album.

Thank you for bringing your children!  
Enjoy!
